The 'Impure Milk" Investiga ion-Report of Committee.

The subjoined is the report made to the Mayor, last night, by a special committee of citizens, appointed at the request of the dairy-

CINCINNATI, OHIO, August 24, 1859. To His Honor R. M. Bishop, Mayor of the city of Cincinnati-Siz: In obedience to written notice given us of our appointment, by you, as a committee to investigate charges against Barney Van Laer, at his own request, "for selling impure milk," the undersigned availed themselves of the conveyance, you was so kind to send to our places of business, and, to-day, visited the dairyfarm, occupied by Mr. Van Laer, a short distance from Ludlow, Kentucky.

We found, on the place, forty-three cows, and personally examined their appearance and condition.

and condition.

To properly understand the character of the milk, and the previous condition of the cows, we took the testimony—in the presence of the owner of the dairy—of Mrs. Elizabeth Hopkins, who says that she resid d on the farm before the dairyman moved on it. Mr. Van Lear keeps his cows, during the winter, in stables, on the Plank Road, in Storrs Township, just below Cincinnati, but, during the spring, summer and fall, they graize on this Ludlow farm. Here the pasturage is abundant, and the cows have access to a reservoir of spring-water at all times, and no still-slop is fed to them on this farm. Some of those present, on that day, gave their opinion that the cow was buckeyed, or poisoned—that several visitors from Cincinnati were present at the time and know of the cowers. sent at the time and knew of the occurrence he described the condition of a large brindle cow that, for a long while, had a sore on her teat, which was so tender as to cause her to kick at those attempting to milk her, and she was always taken to a corner and chained be fore she would give down her milk. The comdescribed; a large scab still covering the sore. The proprietor confirmed the narrative of the witness as to the specific cases of sore tests, and of the death of the cow, which the wife of the proprietor, herself, acknowledged had been indisposed for three weeks, partaking of but little food; but they contended although so suffering the milk was good. Barney Nietect driver of the milk cart, says he has been with Mr. V. L. for two years, but there has been, to his knowledge, no lumpy milk put in the cans. The cows were not sick, but a few tests, as

stated, were sore.

Mrs. Hopkins testifies that of the thirty cows brought over last May, six of them had diseased udders, as she discovered in a few days, from being called upon to milk them. Their teats were raw and swelled, one or two giving bad mitk, thick, feverish and lumpy, like starch, for she had milked such in the cans. On being interrogated why she did so, she said she was employed for others, and it was not her business to pour the milk outwhose dugs were sore, for he and his wife had complained that they never had such trouble before as this one cow had caused them. The witness obtained roots, and, with sulphur and other matters, made a salve for them. She says Mr. V. L. had got out of pa-tience, himself, with the delay and trouble thus brought upon him. All this time the milk was carried off, and, as she supposes,

She described a cow, whose milk, when first given down, would "spirt out in lumps;" that having been milked on the ground, the re-mainder of the milking was placed in the

Three other cows gave milk which would not foam, and that, in her opinion, was not good milk; and of one cow that the proprietor had said that he would not drink it himself for three dollars; that the new cows purchased were not so effected. She described the sudden death, as if of staggers, of a cow, which, up to the day of her death, had been continuously milked.

Five cows, from our observation, bore evidence of disordered udders and sore teats; and from milking two of the teats of one cow, a thick, lumpy, clotted mass exuded. We regre that the testimony is to be taken as to only one dairy, for it may be that the party affected by others, who make a business of making money at any event, by selling all the milk they can obtain from cows, at small cost, whether healthy or unhealthy. But the range of our duty is circumscribed to this individual case; and we say, emphatically, we would not like to use the milk ourselves, and we cannot reccommend the public to do so. These who furnish a great city with milk, should reject from their dairies all cows affected as several

None but good milk should be mingled in we should not have been sent to Kentucky, to expose but a slight portion of this cvil—the Greeks are at our doors! We believe the case of Mr. V. L. is infinitely better than many others in and near this city. His cows are generally in good condition, with the exception of those mentioned, and we believe those were diseased from close confinement in the stables on this side, where they are fed, during the winter, on still slop.

A meeting of the lot-holders of the Catherine-street Graveyard, was held, yesterday afternoon, at the office of Esquire Marchant. The conduct of the Trustees in disrespecting the place was the cause of the meeting. It was stated that a portion of the inclosure had been purposely destroyed, and that hogs and cattle were allowed free use of a part of the grounds; that a partition fence erected at the expense of the lot owners had been destroyed; that a stable had been built over some of the graves, and that the horse of a minister had been allowed to ramble at pleasure through the cemetery. The object, it was stated, was to destroy the character of the cometery and force a removal of the dead, that the grounds might be resold for the benefit of the churches interested.

Commendable feeling was displayed by those at the meeting. It was finally decided to appoint a committee of five to consult with the Trustees, and learn whether they were willing to repair the inclosure and the general damage that had been done to the grounds, and report to a future meeting of the lot owners. Messrs. N. Marchant, F. Harrison, A. C. Brown, D. A. Ross and Samuel Martin were appointed the committee. The next meeting will be held at the call of the committee.

House TARRED,-Considerable excitement was created in the lower part of the city, last evening, by the report that the house of a well-known citizen, residing on Sycamorestreet, had been tarred. Some of the downtown police hastened to the spot, wl were informed that the roof of the house had reseived a coat of tar, preparatory to the laydown of a coat of brown paper and gravel.

Du. Ealing .- By reference to another column it will be seen that this celebrated surgeon has returned to our city after a long absence, and taken rooms in the Opera-house building, where he will operate on corns, bunions, &c., as he alone can operate.

CINCINNATI PARK.—The opening race to-day will, undoubtedly, attract a large crowd of spectators, many who have never before attended a race. All the members of the club will be attended by their wives and daughters.

Emma Pross has been placed in the custody of H. Kessler, Sheriff. Mr. B. Boffinger, surety, having surrendered her to the Court, and she is now in jail.

AMUSEMENTS

WOOD'S THEATER-THE PARODI OPERA TROUPS.—An Opera Troups, with a full and effective chorus, is a sovelty in Cincinnati, and one of the great deficiencies that has hitherto attended the representations of operas in this city, is that the chorus has been very imperfect, and wanting numerical as well as musical strength. The Parodi Opera Troupe now performing at Wood's Theater, are the first to present to this community an opera possessing this important accessory in perfection. Last night Verdi's musterplece, La Thaviara, was performed to a

eritical and discerning audience.

The production of this Opera introduced a new candidate in this city to public 'aver, in the person of Signora Alaimo, who sustained the arduous role of "Violetta," in a manuer that at once stamped her as a lyric actress of more than ordinary ability. She gradually won the favor of her audience; and in the death scene she sang with such exquisite taste and feeling, as to call forth a storm of applause. Signor Striglia, as "Alfredo," and Signor Gnone, as "Glorgio," fully sustained the reputation which has been

awarded them elsewhere.

To-night the Opera of Lucrevia Bongia will be

presented with Parodi in the principal role. The concert to be given by Mrs. Varain James, at Pike's Opera-house, to-night evening, bids fa'r to be a rich treat for the lovers of music Her rare and wondrous powers of song can not fall to be appreciated, if we are to judge from the end niums of the Press. We hope that our citizens will show that just appreciation of these merits she so richly deserves, by filling that magnificent temple of art this evening. As Mr. Pike has given Mrs. James the free use of the Opera-house for her concert, our citizens, we are certain, will not fail to do their part in giving hera liberal reception.

COVINGTON NEWS.

SUSPECTED OF BEING IN THE CITY .- FOR ome time past the officers of both our city and Newport have suspected that McDonald, the soldier who escaped from the Newport Juli, two or three weeks ago, where he was confined for stealing a gold watch, has been prowling about Covington, and they have been on the alert to entrap him. One, and a very good, reason for their suspicions is, they have seen Mattie Ward, an infamous courtesan, who professes to be his wife, roaming about the city in the night season. She was seen on Sunday last in the company of several notorious thieves, in the vicinity of the Licking Bridge, and they were watched to see if McDonald was not among them in disguise. The officers feel certain they will nab him at no distant day.

St. Joseph's Church.-The visitor, as he passes St. Joseph's Church, on Twelfth-street, between Scott and Greenup, is heard to exclaim: "How beautiful," "what a splendid edifice," and they aimost invariably give a vote of thanks to those who were instrumental in .ts erection. We learn that the ladies of the church have it in contemplation to hold a Fair, to commence on the first Monday in September, for the purpose of raising funds to defray the expenses of some of its apartments within. The Fair will be held at Odd Fellows' Hall.

CORONER'S INQUEST .- Late on Tuesday evening, the dead body of a man, minus his head, was found in the Ohio River, lodged in a raft a short distance below Washington-street. It was brought en shore, and a Coroner's inquest was held, which might be said to be almost to no purpose, as the jury could obtain no testimony as to who he was or where from. Their verdict was in accordance with the above facts.

THE SCOTT-STREET ROLLING-MILL .- In company with the "local" Reporter of the Inquirer we fropped in at the colling-mill, yesterday morning, of Messrs. Martin, Williams & Co., and there learned that the institution would resums business again in the course of a couple of weeks. They have nearly oncluded a contract to furnish the rails for two miles None but good milk should be mingled in the draught portioned out at our tables. But as soon as the contract is completed they will commence operations.

NEWPORT NEWS.

DROWNED .- A man named Elias Johnson, formerly employed at Swift's Rolling-mill, was drowned, on Saturday last, in the Licking River. He leaves a wife. His body was afterward recovered.

SHOP-LIFTING .- A woman was yesterday arested by Officer Morton, for stealing a bolt of called from a dry-goods house on Monmouth-street. She was tried before Esquires Payne and Sine, and was held to bail in the sum of one hundred dollars, for her appearance at the next term of the Circuit Court, 10 be held at Alexandria, in default of which, she was committed to jail.

MYSTERY SOLVED .- In our issue yesterday we stated a horse and buggy were found in a pecu-liar situation a short distance back of our city. The circumstances have been cleared up by the appearance of a livery stable keeper from Cincinnati, who claims the property found. It appears a man-name unknown-who worked in one of our rolling-mills hired the horse and vehicle, and when driving on the turnpike was precipitated over an embankment. He, himself, escaped unburt, but the lady with him was soverely injured, having several of her front teeth knocked out by the accident. The horse was left for lead, but upon examination the animal appears only to have been stunged by the fall. The owner removed both horse and buggy to his stable in Cincin-

COLUMBUS NEWS.

COLUMBUS, Aug. 24, 1859. STEAM. - The steam-propeller canal-boat Enterprise arrived here Tuesday evening loaded with one thousand seven hundred and ninety bushels of slack coal. Thousands of our citizens assembled along the canal bank to witness this great enterprise on our canal. As she was passing through the locks a great number jumped on board to take a "steam-boat" ride, and to have it to say that they rode on the first steamboat that ever arrived at Columbus, Ohio.
